MISCONDUCT REFERRAL

Report by Deputy Commissioner on behalf of the Commissioner

SUMMARY

This report relates to the circumstances surrounding the letting of the contract between the MPS and Chamy Media.

A. RECOMMENDATIONS - That

- 1. Members are invited to consider the circumstances described in this report.**

B. SUPPORTING INFORMATION

1. On 1 October 2009 the MPS entered into a contract with Chamy Media, a media consulting firm owned by former News of the World Deputy Editor Neil Wallis. The contract was for senior level media advice and support to cover the sickness absence of the Deputy Director DPA.
2. On 18 September 2009 the MPS Procurement Services provided advice to DPA that 3 competitive quotes were needed. The quotes were received and Chamy Media represented the lowest cost option. The contract was signed on 1 October 2009 and ran for an initial period of 6 months. In March 2010 it was extended for a further 6 months before being terminated on 7 September 2010.
3. The total value the contract was based on two days per month at £1,000 a day, i.e. £2,000 a month. This was to be funded jointly by DPA and SO as some of the media support related to SO matters. AC Yates agreed the SO contribution at the request of Dick Fedorcio, Director DPA. The SO contribution was transferred to DPA who managed the contract and payment of invoices.
4. Termination of the contract occurred after media coverage of phone hacking and was initiated by Neil Wallis.
5. On 1 June 2011 the Commissioner considered it appropriate to undertake a due diligence process in relation to the contract let to Chamy Media in order to ensure transparency, particularly in the event of Wallis becoming subject of the Operation

Weeting investigation. The circumstances have subsequently been the subject of consideration by the Deputy Commissioner supported by DPS and DLS.

6. Neil Wallis was arrested on 14 July 2011 in connection with the investigation into phone hacking by Operation Weeting.
7. The context of this referral is the ongoing high level of public interest in the relationship between News International and the MPS and, in particular the relationship between Mr Wallis and senior members of the MPS.

C. OTHER ORGANISATIONAL & COMMUNITY IMPLICATIONS

Equality and Diversity Impact

1. It is important that there should be fairness, transparency and adherence to MPA and MPS processes in relation to the letting of contracts.

Consideration of Met Forward

2. There are no implications for the delivery of Met Forward.

Financial Implications

3. There are no financial implications.

Legal Implications

4. A conduct matter is defined in s.12(2) Police Reform Act 2002 as any matter which is not and has not been the subject of a complaint but in the case of which there is an indication that a person serving with the police may have: -
 - (a) committed a criminal offence; or
 - (b) behaved in a manner which would justify the bringing of disciplinary proceedings.The appropriate authority in relation to any matter relating to the conduct of a senior officer is the MPA.
The Commissioner is responsible for matters of conduct relating to senior police staff.

Environmental Implications

5. There are no environmental implications

Risk (including Health and Safety) Implications

6. The letting of this contract has been the subject of significant media interest and comment detrimental to the reputation of the MPS. It is therefore necessary that full consideration is given to whether any conduct issues have arisen and, if so, they are addressed in accordance with the statutory framework.

Strategic Communication Report - Chamy Media Sept 09 - Sept 10

- CONFIDENTIAL -

MEMO

To: Tim Godwin, Deputy Commissioner

Title: Phone-hacking related matter

Whilst recently on extended sick leave recovering from operations on my leg I became aware that Neil Wallis' name appeared in a newspaper publication in relation to phone-hacking.

Consequently, upon my return, I considered it appropriate to undertake a due diligence process in relation to the contract let to Chamy Media during 2010. For the sake of completeness I am aware that the company is owned by Neil Wallis, someone who has been known to me for a number of years on a professional and 'light' personal basis. Though I played no part in any negotiations or selection process for the media support DPA were seeking, I was informed that Wallis' company had been selected on the basis of cheapest tender and did subsequently benefit from his advice and assistance.

My purpose in undertaking this process is to ensure transparency, particularly in the event of Wallis becoming subject of the Weeting enquiry - at this time I am not aware that this is the case, and this remains entirely a matter for determination by the Weeting team led by DAC Sue Akers, under the business group command of AC Dick.

Having reviewed the attached file, it does appear that the contract was appropriately let. However, due to the ongoing Weeting investigation, and high-profile interest in this case, I would ask you to 1) ensure AC Dick has sight of this memo and the attached file to inform the Weeting investigation as and when she considers it appropriate 2) with your DPS responsibilities in mind, consider any vulnerabilities presented by the attached file and action as you consider fit. In particular, you will wish to ensure appropriate transparency should there be occasion at any time for referral to the IPCC for any other related Weeting matter.

Paul Stephenson
Commissioner

1st June 2011

External Strategic Communication Support Contract

During 2009 my deputy, Chris Webb, was on extended sick leave [redacted] [redacted] As Head of News his absence left a significant gap in the provision of support and advice to me, the DPA and the MPS more generally in our management and handling media matters and pro-active opportunities.

I therefore sought to appoint an external adviser initially for six months but possibly for up to a year until Chris was able to resume normal duties. I had been taking informal personal advice from several professional colleagues at no cost to the MPS but felt the arrangement should be formalised and put on a proper contractual footing.

Minaxi Patel, DPA Publicity, completed a Request for Formal Contract Action (A) to Procurement Services on behalf of Hannah Gardiner, Assistant Director DPA, on 18 September 2006 requesting a single tender action due to the timescales involved and immediate needs of the DPA.

Alan Corner, on behalf of Procurement Services, advised on 18 September that changes to MPA regulations required the obtaining of 3 competitive quotes which could be obtained by phone. (B)

Based on personal knowledge, recent contacts and additional research as to potential suppliers of this service, I identified three companies who could provide the support and invited them to submit an estimate of their costs.

Following conversations or messages left, emails were sent on 24 September 2009 to Charles Lewington of Hanover (C), Peter Bingle of Bell-Pottinger (D) and Neil Wallis of Chamy Media (E).

Their responses with estimates of daily rate were:

Hanover	£1 [redacted] per day plus VAT
Bell Pottinger	£1 [redacted] per day plus VAT
Chamy Media	£1000 per day plus VAT

A decision was made on these estimates to appoint Neil Wallis of Chamy Media and a contract was subsequently signed on 1 October 2009 (F) with a purchase order issued on 6 October 2009 for seven months at £2,000 per month i.e. two days work per month, via email to Neil Wallis on 7 October 2009 (G).

As some of the media support I was looking for would relate to SO matters I spoke to ACSO John Yates and asked him via email on 1 October 2009 to meet half of the £12,000 anticipated annual costs of this support service. He agreed and the SO accountant subsequently arranged the transfer of £6,000 to the DPA. Email exchanges (H).

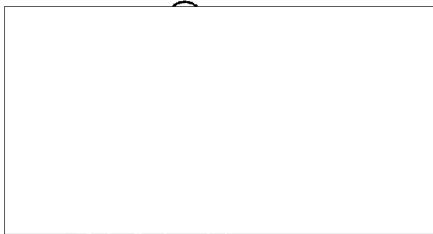

As Chris Webb had still not returned to full time working in March 2010 and was still some way short of doing so it was decided to extend the arrangement with Chamy Media for a further 6 months. This was within the financial limits for the contract and a further purchase order was issued by Procurement Services on 14 April 2010. (I).

We were advised informally by Procurement Services at that time that there was a limit of £50,000 on this contract value and if we wanted to exceed this 6 month extension we should aim to get a reduction in costs, if possible, but we could not go beyond another 12 month period. This was noted on a post-it by Minaxi Patel (J).

Copies of monthly invoices from Chamy Media from September 2009 to July 2010. (K).

On 1 September 2010 an email was sent from Dick Fedorcio to Neil Wallis offering a final 6 month extension of the contract and this was agreed by reply the same day. (L) This email makes also reference to a 'meet with Paul (Stephenson) and Andy Hayman on 21 September (2010)'. This meeting was cancelled as a result of the subsequent exchange of emails set out below.

On 6 September 2010, following recent media coverage of the phone hacking enquiry, Neil Wallis sent an email to me suspending our contract and deciding not to take up the option of extending it. I acknowledged his email on 7 September 2010 and accepted the termination of the contract with immediate effect (L).

Subsequent to my emails last week proposing an extension of the current Chamy contract... please see the latest exchange or emails below.

By agreement, Chamy Media have terminated their contract as of yesterday so there is no need to pursue the extension with Procurement Services.

Dear Neil

I fully understand and share your concerns that your contract with us could be misinterpreted and misrepresented by some sections of the media at this time. They are currently, as you say, in a frenzy and not prepared to listen to reason or present facts accurately on many aspects of this historic investigation..

Our dealings have focused on our policy development and presentation and, as you confirm, we have never discussed this case - if any operational matters past or present. Therefore, it would be wrong for anyone to imply your business relationship with us has had any influence on an investigation conducted several years before the contract started.

I fully understand and support your decision as it is equally important for you to maintain the integrity of your business as it is for me to do the same for the Met.

I therefore accept you termination of the contract with immediate effect.

I have enjoyed working with you and valued your advice and counsel and hope that we will be able to work together again at some time in the future.

Best wishes

Dear Dick,

I'm sorry to have to write to you like this but I think the recent coverage of the so-called "phone-hacking" issue leaves me no choice.

As you know, after I left my former journalistic role as Executive Editor of the News of the World I set about building a new career as a media consultant.

One small contract I got was with the metropolitan police, giving advice about media relations. However, the sheer hysteria of the current coverage of the alleged "phone-hacking" affair now makes me fear that our perfectly proper business arrangement could be misinterpreted by those determined to see conspiracy wherever they look.

I would do anything to avoid causing embarrassment to the metropolitan police, and so therefore feel we must suspend our business dealings forthwith and not act upon the option to renew the contract.

You and I have jointly always been careful to keep a strict firewall around the "phone-hacking" issue, avoiding discussing or considering issues of this type in any of our dealings. However I would hate for our perfectly proper relationship to be misinterpreted.

Accordingly, after seeing the astonishing level of distorted coverage both in print and on TV, nationally and internationally, I have become convinced that suspending our working relationship is the only sensible thing to do.

I really hope we can work together in the future.

Yours sincerely,

Neil

Hi Neil

I hope you are well and refreshed after your hols... was Lefkas as good as I told you?

I see that our contract with you is due to end on September 11.

I have asked our procurement people to extend it for a further 6 months although they did suggest that I should be seeking a reduction in your fees in the current financial climate. Knowing you are a small business I feel it would be impertinent and likely to be highly unsuccessful to seek a reduction at this time. You might even want to seek an increase, which would be equally unsuccessful, so I propose we continue on the present £2,000 per month until 11 March 2011.

Could you confirm if you are content to do so.

I am sure you wont be surprised to hear that once we reach next March we will probably no longer be able to extend this contract for three main reasons. Firstly, one of main purposes for taking out the contract was to provide support to me and my team during the long term sick leave of my deputy Chris Webb, who is now on the mend and working three days a week. Secondly, we are approaching the limit under which we can award a contract without a full and open publicised and documented competition process but even if we were minded to do so (thirdly) we are facing significant budgetary reductions over the next few years and I do not expect to have the necessary funding available to continue.

We are due to meet with Paul and Andy Hayman on 21 September but I am happy to discuss any of this with you before then if you wish.

We have now got a contract in place for the use of Chamy Media (Neil Wallis) to provide us with support for public affairs, media relations and speech writing. This will run from 1 October to 31 March 2010 but with the option to extend for a further 6 months to 30 September 2010 if necessary.

When we discussed this previously we agreed that this contract would provide DPA and SO with this support and that we would share the costs. These have been agreed on the basis of two days per month at £1,000 a day - ie £2,000 a month.

DPA will be managing the contract and arranging payment of invoices. To make things easier, could you arrange for the SO contribution of £6,000 for the rest of the current year to be transferred to the DPA budget (DA100 corporate supplies and services).

We will also need to agree the range of issues and support that you will need over the next 6 months so that Neil can be tasked accordingly.

Subject: Chamy Media contract

John

We have now got a contract in place for the use of Chamy Media (Neil Wallis) to provide us with support for public affairs, media relations and speech writing. This will run from 1 October to 31 March 2010 but with the option to extend for a further 6 months to 30 September 2010 if necessary.

When we discussed this previously we agreed that this contract would provide DPA and SO with this support and that we would share the costs. These have been agreed on the basis of two days per month at £1,000 a day - ie £2,000 a month.

DPA will be managing the contract and arranging payment of invoices. To make things easier, could you arrange for the SO contribution of £6,000 for the rest of the current year to be transferred to the DPA budget (DA100 corporate supplies and services).

We will also need to agree the range of issues and support that you will need over the next 6 months so that Neil can be tasked accordingly.

Dear Dick, thank you for the contact below, particularly bearing in mind I already have been doing some work for you at an informal rate of £2,000 per month for the equivalent of two days of my time. I of course would be delighted to continue our relationship along the same lines, as your email makes clear you plainly need. I think my experience of 20 years at the very top level of national newspapers (15 years as either an Editor or Deputy Editor), my knowledge of how the industry works and the people at the very top level, and the widespread contacts I have in it is of great use to you. That enables me to assist you effectively at many levels, whether it is the speech-writing I helped with recently for the Commissioner, or advising you on how to deal with controversies that arise such as Operational Independence, or the political contacts and associations that I can call into play. Regards, Neil.

hanover

hanover is well placed to provide the Metropolitan Police with external strategic communications, public affairs and speech writing support over the next six months should it be required.

In anticipation of a number of different project tasks, we propose a blended day rate to include significant support from Managing Director Charles Lewington; a strong media relations operator and Senior Account Director (equivalent of Director-level in most other agencies); a consultant and former in-house press officer with good Police communications experience and a researcher to provide background notes for the senior team.

Our backgrounds include:

Charles Lewington, Managing Director – Before founding hanover in 1998, Charles was Press Secretary to John Major at No.10. He has over 20 years communications experience working at the highest levels in national newspapers, government, politics and the commercial world. Charles advises the CEOs and Communications Directors of a range of public and private sector clients including Sky, Diageo, Lockheed Martin and Banco Santander. He is also an accomplished speech writer.

Enda Joyce, Senior Account Director – Enda has eleven years communications experience and is a crisis communications specialist. He spent three years at Westminster City Council before joining hanover where he led the team which protected the McCann family from the media storm which enveloped them on their return from Portugal in September 2007. He works for a range of private and public clients, including Partnership Assurance, the Shell Foundation and the Services Complaints Commissioner.

Isobel Bradshaw, Consultant – Isobel works across a range of private and public sector client accounts, providing both public affairs and media relations support. Before joining hanover, Isobel worked as a press officer for O2, gaining valuable experience in both reactive and proactive media relations. She worked on the Police Federation's Fair Play campaign and also supported the McCann family.

Kieran O'Connell, Researcher – Kieran supports a range of private sector clients, working in industries ranging from telecommunications to medical device manufacturing. He provides clients – including BSKyB, H3G and BPP – with extensive media and parliamentary monitoring services. Prior to joining hanover, Kieran worked in the constituency office of former transport secretary Ruth Kelly MP and for a PR consultancy in Manchester.

Budget

We anticipate that the likely composition of an eight hour day would comprise four hours from the Managing Director (£ [] an hour), two hours from the Senior Account Director (£ [] an hour) and one hour each from the Consultant (£ [] an hour) and Researcher (£ [] an hour). On a full price basis our blended daily rate would be £ []

Applying a public sector discount, we would be prepared to offer our services to the Metropolitan Police for [] a day plus VAT plus expenses and [] administration to cover phones and electronic communication. Any hours worked over and above the agreed two-days a month would be charged at the agency's normal hourly rates (as above). An eight month contract, starting in October, could provide support up to and including a General Election campaign.

Hanover is a member of the Public Relations Consultants Association and the Association of Professional Political Consultants. We keep detailed time sheets detailing client work to the nearest 15 minutes and believe we have the highest security standards of any agency in London, including encryption facilities.

MetSec Code - NOT PROTECTED

I have presented your STA request to Nick Prebble and Simon Gale and your STA request has been declined.

The reason for this is that MPA have recently changed their reasons for approving STA's.

In this case if you obtain 3 competitive quotes say by phone this would only take 2 days at most.

Your decision on which quote would deliver Best value does not rely wholly on price but most importantly is effected by the experience of the delivering company.

In this case any challenge from the market/press to the selected company can be truly answered that award followed a competitive piece of procurement

Hope this helps

Please find attached Form 1049 for immediate action required by the DPA.

You will see on the attached document that due to the timescales involved and immediate needs the DPA is requesting a single tender action.

I'd be grateful for an urgent decision on this matter on behalf of Director DPA, Dick Fedorcio.

Please note- a signed hard copy is on its way via the internal post.

Comment [PE10]: The MPS may highlight opportunities to organisations that it wishes to have any OJEU notice drawn to their attention, or for tenders which are not subject to the publication of an OJEU notice, organisations the budget holder wishes to include in the process, or, in the case of contracts using the Construction line approved supplier list, organisations to be forwarded the tender.

Comment [PE11]: It is mandatory legal requirement that where the MPS does not competitively tender a requirement, an appropriate exemption to EU Contract Regulations be recorded. For details on individual exemptions, please contact Procurement Services prior to completing this form

Comment [PE12]: This is classified as where there is insufficient time to carry an appropriate competitive procurement exercise before the goods or services are required. Failure to plan or allow appropriate time for all regulatory actions on a known requirement does not constitute a justifiable exemption for urgency

Comment [PE13]: when the goods to be purchased or hired under the contract are required by the contracting authority as a partial replacement for, or in addition to, existing goods or an installation and when to obtain the goods from a supplier other than this supplier which supplied the existing goods or the installation would oblige the contracting authority to acquire goods having different technical characteristics which would result in incompatibility between the existing goods or the installation and the goods to be purchased or hired under the contract; or disproportionate technical difficulties in the operation and maintenance of the existing goods or the installation;

Comment [PE14]: The use of the security exemption must be supported by an attached e-mail or letter approved by an Assistant Commissioner grade or equivalent and above. For details regarding security exemptions, please contact Procurement Services prior to completing this form

This is in part due to the long term absence of the Deputy Director.</p> <p>The DPA requires a single tender action because these services are required immediately and therefore the usual procurement timescales would not meet the DPA's immediate requirements. The DPA are aware of a consultancy who is in a position to provide the required service and wish to appoint this consultancy. Metropolitan Police Authority

Professional Standards Committee – 18 July 2011

MISCONDUCT REFERRAL

Report by Deputy Commissioner on behalf of the Commissioner

SUMMARY

This report relates to the circumstances leading to the employment in the MPS of the daughter of Mr Neil Wallis, formerly of the News of the World, for consideration by the Professional Standards Committee.

A. RECOMMENDATIONS - That

1. Members are invited to consider the circumstances described in this report.

B. SUPPORTING INFORMATION

1. On 26 January 2009, Neil Wallis the Executive Editor of the News of the World sent an e-mail with his daughter Ms Amy Wallis's CV attached to Assistant Commissioner John Yates.
2. On 29 January 2009 AC Yates sent the CV to Mr Tiplady with the following text:

Bit of advice please - the attached CV belongs to the daughter of Neil Wallis, the Dep Editor of the News of the World. You probably know that Neil has been a great friend (and occasional critic) of the Met in past years and has recently been a close advisor to Paul on stuff/tactics in respect of the new Commissionership.

Amy is looking for a change of direction and something steady - a bit along the lines of the work that my son Michael did recently - although she looks eminently qualified to do something more demanding. I have met her on several occasions and although would not claim to know her well she is clearly bright, very personable and present well.

Clearly there is a vetting issue which would prob have to go through the normal channels unless you advise me otherwise.

Be really grateful for an early response so I can manage the expectations with both Neil and Amy.

3. A series of emails between other members of staff continues until 25th March 2009. According to MetHR Ms Wallis was given vetting clearance on 8 May 2009 and starts employment with the MPS on 1 June 2009 in HR1 - Strategy. This appears to be as a Band E on a Fixed Term Appointment (FTA). On 13 July 2009 she transferred to CO15 Traffic, apparently on a permanent contract.
4. On 15 July 2011 Ms Wallis declared her connection to Neil Wallis in line with the Declarable Association Policy.
5. The context for this referral is the ongoing high level of public interest in the relationship between News International and the MPS in general arising from issues connected with Operation Weeting the investigation into 'phone hacking', and Mr Wallis and senior members of the MPS in particular.

C. OTHER ORGANISATIONAL & COMMUNITY IMPLICATIONS

Equality and Diversity Impact

1. MPS policies for the recruitment and posting of staff are designed to ensure fairness and equality of opportunity. It is important that the MPS adheres to the policies it sets in this respect and that the clearest example is set at the senior level in order to retain the confidence of staff.

Consideration of Met Forward

2. There are no implications for the delivery of Met Forward.

Financial Implications

3. There are no financial implications.

Legal Implications

4. A conduct matter is defined in s.12(2) Police Reform Act 2002 as any matter which is not and has not been the subject of a complaint but in the case of which there is an indication that a person serving with the police may have:
 - (a) committed a criminal offence; or
 - (b) behaved in a manner which would justify the bringing of disciplinary proceedings.The appropriate authority in relation to any matter relating to the conduct of a senior officer is the MPA.
The Commissioner is responsible for matters of conduct relating to senior police staff.

Environmental Implications

5. There are no environmental implications.

Risk (including Health and Safety) Implications

6. The relationship between News International and the MPS has been the subject of significant media interest and comment detrimental to the reputation of the MPS. It is therefore necessary that full consideration is given to whether any conduct issues have arisen and, if so, they are addressed in accordance with the statutory framework.

Paul/Alex,

discussed this with Martin. Timing is not ideal perhaps in light of other issues that have been raised recently at SMT that you Paul especially will be sensitive to and also the ongoing debate about FTA's, Adam Triggs et al, but all the same Martin is very keen for us to accommodate Amy, particularly in light of her father's position/relationship! He did mention a vacancy in THR Comms (?).

Do either of you have any ideas/suggestions on an obvious way forward that you can facilitate on MT's behalf asap please?

Please find attached the CV of Amy Wallis.

We need to provide Amy with a FTA for at least 6 months.

ESB would be an ideal location, so maybe she can join the service continuity team as she wishes to have an admin role.

We obviously need to ensure vetting takes place.

Please can we discuss.

Members within my team at the time managed the agency and Fixed Term Appointments, so I'm unable to find all of the detail.

Background

As part of the Transforming HR Programme, the introduction of a centralised HR service, meant that a significant reduction in headcount could be achieved to secure savings and efficiencies for the MPS.

To support the reduction in headcount, a great deal of effort was placed on vacancy management and monitoring service continuity concerns/impact when individuals who did not wish to be part of the new HR structure, transferred to alternative roles or left the MPS. A menu of options were developed at the time, and it was agreed that if required to continue business as usual until go-live, agency and fixed term appointment (FTA) staff would be used.

Adverts

I recall a number of external adverts for FTAs, but am unable to determine exactly when these were published, although they were placed on the met careers website.

Interviews were held for these appointments and vetting followed for those who were successful. I'm unable to state unless I ask an ex member of my team (Michael Edelstein within the email trail) whether Amy Wallis had an interview, but she was vetted. I do not believe she completed an application form, which others did, as her CV was sent in.

Due to the delays in introducing HR PeopleServices, there was a requirement in a number of cases to give new FTAs to individuals to ensure they were retained until implementation. Due to the delays, a number of FTAs secured 'permanent' posts in the MPS as they were eligible to apply under the FTA arrangements. I believe this is how Amy Wallis secured a Resources role within CO15.

Please find the following attachments:

FTA

I do have emails in October 2009, when we were re-energising Adecco/Reed to secure further agency / FTA resources due to the ongoing delays to PeopleServices launch.

hope this helps for now.

Paul

Please find a draft for MT regarding the FTA issue. I'm trying to do MT speak, but have failed I think -

There are currently 63 Fixed Term Appointment (FTA) staff within HR. The majority responded to adverts where it specified that the appointment was to support service continuity during an HR change programme within the MPS.

The current Band D and E selection process is due to be completed by mid April when we will have firm names and numbers of how many individuals may be in the at risk pool for redeployment or early exit and where potential vacancies remain. FTA staff are not considered as part of this process, due to the reductions required in headcount at D and E. They are however, able to apply for roles within the MPS (and some have been successful), albeit the majority have been retained within HR to support service continuity.

The FTA pool will be the focus of selection for vacancies as they offer a fast track in, due to being security cleared already. Feedback from HRMs and Unit Heads has been positive with a number of individuals demonstrating the right skills, attitude and potential with a number being graduates.

For those FTAs who have been highlighted as being the right calibre (such as) we can offer a new FTA to retain their skills, and vacancies may arise from the current selection process or between now and go-live, which will present opportunities for Adam and others to apply for. As you're aware we also need to be mindful of the current exercise to manage budgets considering temps and FTAs in the first instance.
